Whole-School Literacy

Phil Rigby
Edge Hill University

Literacy is a bridge from misery to hope
Kofi Annan

Session content

1. Current national picture and policy developments
2. Whole-school literacy - the background
3. What I can do to promote, develop and teach literacy in my school or classroom?

“Every teacher in English is a teacher of English”
George Sampson (1921)

“All teachers are teachers of Literacy”
Sir Alan Bullock (1975)
Teaching Standards

Part 1: Teaching

3. Demonstrate good subject and curriculum knowledge.
   c. Demonstrate an understanding of and take responsibility for promoting high standards of literacy, articulacy and the correct use of Standard English, whatever the teacher’s specialist subject.

5. Adapt teaching to respond to the strengths and needs of all pupils.
   a. Have a clear understanding of the needs of all pupils, including those with special educational needs; those of high ability; those with English as an additional language; those with disabilities; and be able to use and evaluate distinctive teaching approaches to engage and support them.

8. Fulfil wider professional responsibilities.
   b. Develop effective professional relationships with colleagues, knowing how and when to draw on advice and specialist support.

‘The Framework for school inspection’

Achievement of pupils at the school

When evaluating the achievement of pupils, inspectors consider:
- how well pupils develop a range of skills, including reading, writing, communication and mathematical skills and how well they apply these across the curriculum.

Quality of teaching in the school

When evaluating the quality of teaching, inspectors consider:
- how well teaching enables pupils to develop skills in reading, writing, communication and mathematics.

What's the state of the evidence on... Teaching Latin

I studied Latin at GCSE. My younger brother studied it to a level and then as a part of a Classical degree. I really enjoyed studying Latin and I have always seen it as important for the fact that I did not carry on with it in the 6th form. Much to my surprise, the comprehensive school to which I complained about my teacher training offered Latin! The main grammar school in which I eventually went does not teach Latin, having dropped it as a subject about a decade ago. I have always maintained that is would have been better had I have decided to...
Literacy: State of the Nation (NLT, 2011) provides a coherent picture of literacy in the UK today.

It reveals that:
- One in six people in the UK struggle with literacy. This means their literacy is below the level expected of an eleven year old.
- A quarter of young people do not recognise a link between reading and success.
- Men and women with poor literacy are least likely to be in full-time employment at the age of thirty.
- There is a constant gender difference in attitudes towards writing. Boys do not enjoy writing as much as girls (38% vs. 52%), either for family/friends or for schoolwork.
• So how does the national picture for the UK compare with what you know of the pupils who come to your school?
• For pupils coming from backgrounds where conversation, reading and writing are sporadic and, perhaps, impoverished, what first impressions does your school give of an attitude to talking, reading and writing?
• What do you know of the attitudes of your pupils and parents to, say, reading and writing? How could you find out more?

How is Literacy different to English?

Literacy is much wider than English.

English exposes students to a range of fiction and non-fiction texts.

Literacy is about communicating effectively.

Every subject has its own literacy.

A consistent whole-school approach can help pupils learn better

Classrooms and corridors:
• Key words for the subject are on display
• Annotated examples of what high quality work looks like are visible
• Displays that are readable from a distance, e.g. with questions rather than statements
• The learning objective for every lesson is evident. Pupils know what they are expected to learn and how they will demonstrate it
A consistent whole-school approach can help pupils learn better

Teacher talk:
• Exploratory talk: less use of 'what?' questions and more use of 'why?' and 'how?'
• Pupils are given time for oral rehearsal - briefly discussing their answers in pairs before being expected to say them aloud
• Pupils are given thinking time before giving an answer
• Increasing use of no-hands-up

Reading:
• Teachers teach the reading skills needed in a subject - e.g. skimming, scanning, speed reading, analysis and research
• Handouts are presented in ways that are attractive and accessible, taking account of the reading ages of pupils
• Key words are included at the start of handouts
• All handouts include a 'big picture' question or statement that helps pupils understand why they are reading it

Writing:
• Collaborative writing: pupils see their teacher modelling how to write the first paragraph of an answer
• The essential discourse markers of writing are taught (e.g. however, although, despite, because, while)
• Pupils are encouraged to use short sentences at the start and end of paragraphs
Talking Point

- Which of these suggestions would you say were current strengths in your classroom / department / school?
- What are the main areas that need developing?
- What are the main blocks or restrictions to implementing these?

The 2014 National Curriculum contains a section on 'Spoken Language' for each subject e.g. Science:

The national curriculum for science reflects the importance of spoken language in pupils' development across the whole curriculum - cognitively, socially and linguistically. The quality and variety of language that pupils hear and speak are key factors in developing their scientific vocabulary and articulating scientific concepts clearly and precisely. They must be assisted in making their thinking clear, both to themselves and others, and teachers should ensure that pupils build secure foundations by using discussion to probe and remedy their misconceptions.

What research tells us about classroom talk

- Talk - of the right quality - promotes the development of children's reasoning, conceptual understanding and reading comprehension
- Many pupils do not get a rich enough experience of spoken language outside school for this development to be assured
- Pupils do not merely need experience of speaking and listening in school: they need to be expressly taught the relevant functional skills: how to use talk to construct arguments, jointly solve problems and comprehend texts
Children learn most from talk in class when:

- The teacher develops pupils' reflective awareness of how to talk and work together
- The teacher encourages them to express tentative ideas
- The teacher models good spoken language skills in whole class discussions
- The teacher scaffolds group work, but mainly stays out of it
- Group work involves tasks that really require children to think together

Group work matters:

- It can aid learning
- It can assist pupils' social development
- It can assist pupils' linguistic development

Organising group talk:

- Listening triads (talker, questioner, recorder)
- Envoys
- Snowball
- Rainbow groups
- Jigsaw
- Spokesperson
- Observer/listener

"The ability to read and write"

Skills for life

- Reading
- Writing
- Speaking
- Listening
- Creativity

These life skills are essential to the happiness, health and wealth of individuals and society. (National Literacy Trust, 2011)
**Reading**

For whosoever hath, to him shall be given, and he shall have more abundance: but whosoever hath not, from him shall be taken away even that he hath

*Matthew 13:12*

...while good readers gain new skills very rapidly, and quickly move from learning to read to reading to learn, poor readers become increasingly frustrated with the act of reading, and try to avoid reading where possible.

*Daniel Rigney: The Matthew Effect (2010)*

**Reading**

There may be a social dimension involved as well, as good readers may choose friends who also read avidly while poor readers seek friends with whom they share other enjoyments.

Researchers generally agree that early differences between good readers and poor readers tend to persist into adulthood and poor readers rarely catch up.

*Daniel Rigney: The Matthew Effect (2010)*

**Simple view of reading**

- Good language comprehension, good word recognition
- Good word recognition, good language comprehension
- Poor word recognition, poor language comprehension
- Poor word recognition, good language comprehension
This sentence has five words. Here are five more words. Five-word sentences are fine. But several together become monotonous. Listen to what is happening. The writing is getting boring. The sound of it drones. It's like a stuck record. The ear demands some variety. Now listen. I vary the sentence length, and I create music. Music. The writing sings. It has a pleasant rhythm, a lift, a harmony. I use short sentences. And I use sentences of medium length. And sometimes, when I am certain the reader is rested, I will engage him with a sentence of considerable length, a sentence that burns with energy and builds with all the impetus of a crescendo, the roll of the drums, the crash of the cymbals—sounds that say listen to this, it is important. 

Gary Provost

Glombots

Glombots, who looked dourly and lurkish, were very fond of wooning, which they usually did in the grebble rather than the grimper.

• What did glombots look like?
• What were they fond of doing?
• Where did they go wooning?
• Why do you think they preferred the grebble to the grimper for wooning?

Reading

Unless children have learned to read, the rest of the curriculum is a secret garden to which they will never enjoy access.

Spelling

1. criticise
2. prejudice
3. twelfth
4. desperate
5. harass
6. conscious
7. privilege
8. recommend
9. necessary
10. sufficient

These spellings are all on the Years 5 and 6 list for the new primary English curriculum!

“The Dirty Thirty”

1. accommodation
2. beautiful
3. because
4. beginning
5. believe
6. business
7. ceiling
8. decided
9. definitely
10. disappear
11. disappointed
12. embarrass
13. extremely
14. friend
15. immediately
16. minute
17. necessary
18. neighbour
19. nervous
20. opportunity
21. persuade
22. queue
23. queueing
24. quiet
25. quite
26. receive
27. separate
28. sincerely
29. surprised
30. until

Teaching Spelling

Break it into sounds (d-i-a-r-y)
Break it into syllables (re-mem-ber)
Break it into affixes (dis + satisfy)
Use a mnemonic (necessary: one collar, two sleeves)
Refer to word in the same family (muscle - muscular) (word webs)
Say it as it sounds (Wed-nes-day) (spellspeak)
Words within words (Parliament - I AM parliament)
Refer to morphology (bi + cycle = two + wheels)
Use patterns (bright, light, night, etc.)
Use a key word (advice/advise for practice)
Apply spelling rules (writing, written)
Hone by sight (flash cards write check)
51. Having considered a wide range of evidence, the review has concluded that the case for systemic phonic work is overwhelming and much strengthened by a synthetic approach (Rose, 2006:20).

Removing Barriers to Literacy

- Teachers with high expectation for pupils’ achievements in literacy
- An emphasis on speaking and listening skills from an early age
- A rigorous, sequential approach to developing speaking and listening and teaching reading, writing and spelling through systematic phonics

Ofsted (2011)

“We know that, whatever else may work, teaching children to read using the tried and tested method of synthetic phonics can dramatically reduce illiteracy”

(Michael Gove speaking to Westminster Academy, 6 September 2010)
“There is more to reading than phonics. But high-quality academic evidence from across the world – from Scotland and Australia to the National Reading Panel in the US – shows that the systematic teaching of synthetic phonics is the best way to teach literacy to all children, and especially those aged five to seven.”

(Nick Gibb Schools Minister, March 2011)

Impact
Philosophical Perspectives on Educational Policy

To read or not to read: decoding Synthetic Phonics
Andrew Davis
(Issue 20 pages 1–38 November 2013)

Primary Schools

Teach students to comprehend texts as well as decode and encode words

Systematic synthetic phonics refers to teaching word recognition whereby phonemes (sounds) associated with particular graphemes (letters) are pronounced in isolation and blended together (synthesised) in order to decode words.
How can I help?

- Reading is THE MOST important skill a child learns at school
  - High language comprehension
  - High word recognition

Isn't this a job for the English Department?

What literacy skills do my students need to have to succeed in my subject?
- Read
- Write
- Speak
- Listen

GCSE exam question

Explain the difference between muscular strength and power. (4 marks)

Connectives for comparison

- however
- on the contrary
- as for
- …while...
- …although...
- despite this...
- instead...
- whereas...
- on the other hand...

Isn't this a job for the English Department?

- What literacy skills do my students need to have to succeed in my subject?
- Read
- Write
- Speak
- Listen
What can I do?

- Font
- Word mats
- Displays
- Spelling tests
- Speaking and listening activities
- Key definitions consistent in all classrooms

Word mat

Displays
Whatever the task:

Know your punctuation...

Commas are used to separate words in lists or add information.

Semicolons link two or more simple sentences, providing the sentences are linked by a common theme.

Colons usually show that some example, explanation or list is going to follow. It can also be punctuation speech in plays.

Hyphens are used to join two or more words into a new, compound word.

Speech marks are used to show when a character is speaking out loud to another character.

Exclamations are used to show command, surprise and when the author is trying to emphasis hard-hitting phrases.

Question marks are used at the end of a question. Look out for those question words to help you!

Brackets contain material which could be missed out without altering the meaning of the sentence. They are used to add asides or additional pieces of information.

Ellipsis can be used to finish a sentence off, making an incomplete sentence complete. They can show missing words from a quotation or show a pause or hesitation in writing.

Reading, Writing, Speaking & Listening

<table>

</tbody>
</table>

Opportunities for extended writing

- Art
  - Descriptive writing
- Geography
  - Writing to inform
- History
  - Report writing
Repetition

Expose students to as many different opportunities to read, write, speak and hear others speak as possible.

'It is only when all students in a school have a voice - and can read - that they can be really successful'
Ruth Miskin (2009)
