## Read&Write 11 Gold

Get help quickly whilst you are studying by using the 'Read&Write 11 Gold' toolbar.

From the Windows Start menu, choose **All programs | Tools for Learning | Read&Write11.**

Drag the toolbar to a location that suits you by clicking and dragging the **Title** bar.

If it is docked (e.g. at top or side of screen) click the **Anchor**  on the right to release it.

Try out some of the features and see what suits you. The list below shows some of the most popular features.

Click the <b>texthelp</b> button on the right to see the range of toolbars available.	
Each <b>drop down</b> arrow on a command button will provide Additional settings and a short <b>video tour</b> .	
Hear your words spoken by using the <b>Play</b> button	
<b>Spell check</b> your text as you type or do it later.	
<b>Verb Checker</b> helps you decide which <i>tense</i> to use in a sentence.	
Use <b>Study Skills</b> to highlight and collect sections of text.	
<b>Prediction</b> helps predict words you might want to type.	
Create your own vocabulary list with the <b>Vocabulary</b> button.	
<b>Fact Finder</b> helps you research information from a range of web sites.	
Get definitions of words that sound the same with the <b>Sounds Like and Confusable words</b> button.
