

Feedback Resilience: Make A Plan

Choose a past assignment which received a range of constructive tutor comments.

Read through each of the comments, looking for common concerns. Can you identify a maximum of three reoccurring feedback concerns?

You may find it useful to create a key for highlighting these concerns, so you can number them throughout your assignment to give you a visible overview, e.g....

- 1 – Referencing errors / omissions
- 2 – Too descriptive / not enough criticality
- 3 – Points raised are not fully backed up with academic literature

Identify the three concerns that were raised most often in your assignment:

	Feedback concern:
1.	
2.	
3.	

What steps can you take to improve these concerns and develop your skills:

	I will...	By when...	What support might I need...
