

Academic Writing Toolkit- Transcript

Hi, my name is Claire. Welcome to this toolkit, which has been designed to support you with skills specific to academic writing.

Academic writing may seem different to other writing experiences you've had.

However, it's important to realise that writing is a process and a skill which you will develop over time.

Your tutors understand this and you are not expected to be a fully competent academic writer at the start of your course.

Academic writing will enable you to demonstrate your understanding, of course material, engage deeply with subject matter, analyse complex ideas and formulate coherent arguments.

Proficiency in academic writing will equip you with the ability to communicate effectively, think critically and contribute meaningfully during your time at Edge Hill, but also in professional environments, making it an indispensable skill for success during your studies and beyond university life.

Let's explore how to make the process of writing academically clearer so you can get started confidently.
