

Learning Edge (modes of engagement)

Mode 1: Course administration and support:

Use Learning Edge to distribute course information and carry out course administration

Mode 2: Blended learning using Learning Edge leading to enhancement of the learning process:

Communication: announcements, email, discussion, wikis, blogs

Electronic Assignment Management (EAM): eSubmission, marking, feedback, audit/tracking

Collaboration: shared spaces for collaborative work

Learning Content: tutor generated, reusable digital materials, student generated e.g. personal spaces, ePortfolios, shared resources

Created with mobile 'friendly' communications and course content in mind

Mode 3: Online course or module:

Learning Edge courses incorporating all or most of the above, that can be delivered flexibly to allow learners to learn at a time and place of their own choosing
