

## Activating your eShare account

eShare is Edge Hill University's repository for teaching and learning materials. All students and staff of the University have an eShare account.

You need to activate your account so that your colleagues can make certain resources available to you or give you the right to edit items.

Here's how:

- Go to [www.eshare.edgehill.ac.uk](http://www.eshare.edgehill.ac.uk)
- Choose **Login** and enter your username and password – these are the same as you use for logging into the University network (your password will update automatically too).
