Feedback Resilience: Make a plan

Choose a past assignment which received feedback or comments within the text. Read through each of the comments, looking for common concerns. Identify a maximum of three reoccurring feedback concerns?

You may find it useful to create a key for highlighting these concerns, so you can number them throughout your assignment to give you a visible overview. For example:

1 – Referencing errors / omissions

2 – Too descriptive / not enough criticality

3 – Points raised are not fully backed up with academic literature

Identify the three concerns that were raised most often in your assignment:

1.

2.

3.

Identify what steps can you take to improve these concerns and develop your skills:

Concern	I will…	By when…	What support might I need…
1			
2			
3
