

## Focus on Feedback - Transcript

Hi, my name is Claire, and I am the Senior Academic Skills Advisor with UniSkills here at Edge Hill University.

This toolkit has been designed to support you with skills specific to engaging with your academic feedback.

Understanding the purpose and function of your academic feedback can help you to use it more productively. Whilst thinking about how your emotions may play a part in your response to feedback, can support you to reflect, plan and learn better on any areas to improve.

Whilst receiving a grade on an assessment is important to us all, particularly one that we're happy with, the academic feedback that goes alongside that grade is arguably even more important.

So, let's discover how to engage fully with your academic feedback, and harness how it can develop your academic skills further.
