What is eShare?

Managed by Learning Services, [eShare](#) is a digital repository for managing all types of teaching and learning resources. It is accessed via the web.

Why use eShare?

- Resources can be stored in eShare and linked to multiple Blackboard courses.
- Savings can be made through sharing and re-use of existing resources.
- Expensive Blackboard file storage can be reduced.

Which resources can be uploaded to eShare?

The eShare repository is for teaching and learning resources created by staff at Edge Hill University. Purchased teaching and learning resources may also be added to eShare with the necessary licence information included and the associated viewing and access permission included in the repository record for the resource.

Who can upload to eShare?

Edge Hill Staff members can upload to eShare, logging in with their university username and password.

Is there a limit on file size?

There is no limit set. However various technical factors may impact on successful upload of very big files.

How do I upload resources to eShare?

The '[eShare Contributor Guide](#)' takes you through uploading resources to eShare.

Who will be able to access the teaching materials in eShare?

Most teaching materials will be restricted to Edge Hill staff and students. However, it is possible to set up public collections of teaching materials, for example as a showcase for potential students.

Who do I contact with other questions?
